Health, Safety, Security & Environmental Policy

Pulido Transport and our Senior Management is committed to applying responsible and sustainable practices to protect the health, safety, security and environment in all aspects of our operations, for our team members, customers, motorists, communities and other stakeholders. We are committed to the continual improvement of our operations across the United States and Canada through the Responsible Care initiative and its Guiding Principles. We shall work with our stakeholders as appropriate to establish and assess progress against relevant goals, objectives and targets to support continual improvement.

We will abide by all applicable regulations and requirements, including the obligations of the Responsible Care program.

For all operations, we shall take into account equipment maintenance, safety features, spill prevention, monitoring, tracking technologies and risk mitigation in the development of our HSSE procedures and associated training.

We shall continually ensure team members receive applicable training for the handling and transporting of hazardous materials. Such training will be ongoing, recorded and consistent with the current trends of the local and federal standards and regulations.

Senior Management shall where applicable periodically evaluate, improve, document and implement all policies and procedures with the highest regard to the environment, health, safety and security.

Pulido Transport shall strive to maintain transparency, communications and service excellence in all areas of our operations and share information as appropriate with our internal and external stakeholders.

All Pulido Transport team members are responsible for adhering to this and all policies and procedures.
